* This stat is the shooter's average based on the number of targets for the events the shooter has attended.

** This stat is not entirely accurate. I do not have the ability to know which station each shooter started on. Without that information there is no way to determine precisely how many stations were ran consecutively. That said, this stat is tracked as if everybody started on Station 1 at each shoot. It will continue to accumulate from one shoot to another. For example, if a shooter ran the last two stations on shoot #1 and the first two stations on shoot #2 then dropped a target on shoot #2 station #3 this would count as four consecutively ran stations.

*L. Avg:

League Average

Is the shooters average score based on the number of targets thrown to date in the league.

*P. Avg:

Personal Average

Is the shooter's average based on the number of targets for the events the shooter has attended.

2023-2024 CanAm

Shoot Report

How would you determine which station was the "Hardest" at a shoot? I guess it would be easy to just look at the station average. Is that really the way? What about how many times people ran a station? I think it's a combination of both the lowest average and the number of times the was station ran. Looking at the first shoot of 2023-2024 CanAm season at Delaware, the lowest station average was station five, with a .532. But look at how many people ran that one, seventeen. The next lowest station average at the shoot was station nine, with a .562. Only 1 person out of 103 attendees ran that station. To me station nine was the "Hardest" station at that shoot. If you disagree, I'll ask again, how would you determine which station was the "Hardest" at a given shoot?

Shoot Rating from Hardest to Easiest

Just as Bob Sivell has done in the past, the shoot rating from hardest to easiest is determined by the average score of the top 20 shooters at each event. Also, as previously stated in this report the Station Rating is a combination of how many times a station was ran plus the average number of hits on the station at the given shoot.

How the Station Rate is determined

#of times ran 1.000
 Station Avg + 0.562
 Station Rating 1.562

Four Square
Otter Valley
Delaware
Lambton Sportsman
Twin Creek
Lambton Conservation

	Avg of the Top 20 Shooters	# of Stations at this shoot	Station Rate less than 1	Station Rate less than 10	Station Rate between 10 and 20	Station Rate between 20 and 30	Station Rate between 30 and 40	Station Rate greater than 50
80.250	15	0	7	5	1	1	1	0
81.900	12	1	5	4	2	0	1	0
84.300	14	0	3	7	1	2	0	1
85.050	13	0	5	5	2	0	1	0
85.350	13	0	4	4	2	3	0	0
93.650	14	0	0	1	6	5	2	0
